Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Why Not?

TO REPAIR LINOLEUM

If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

Why Not?

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

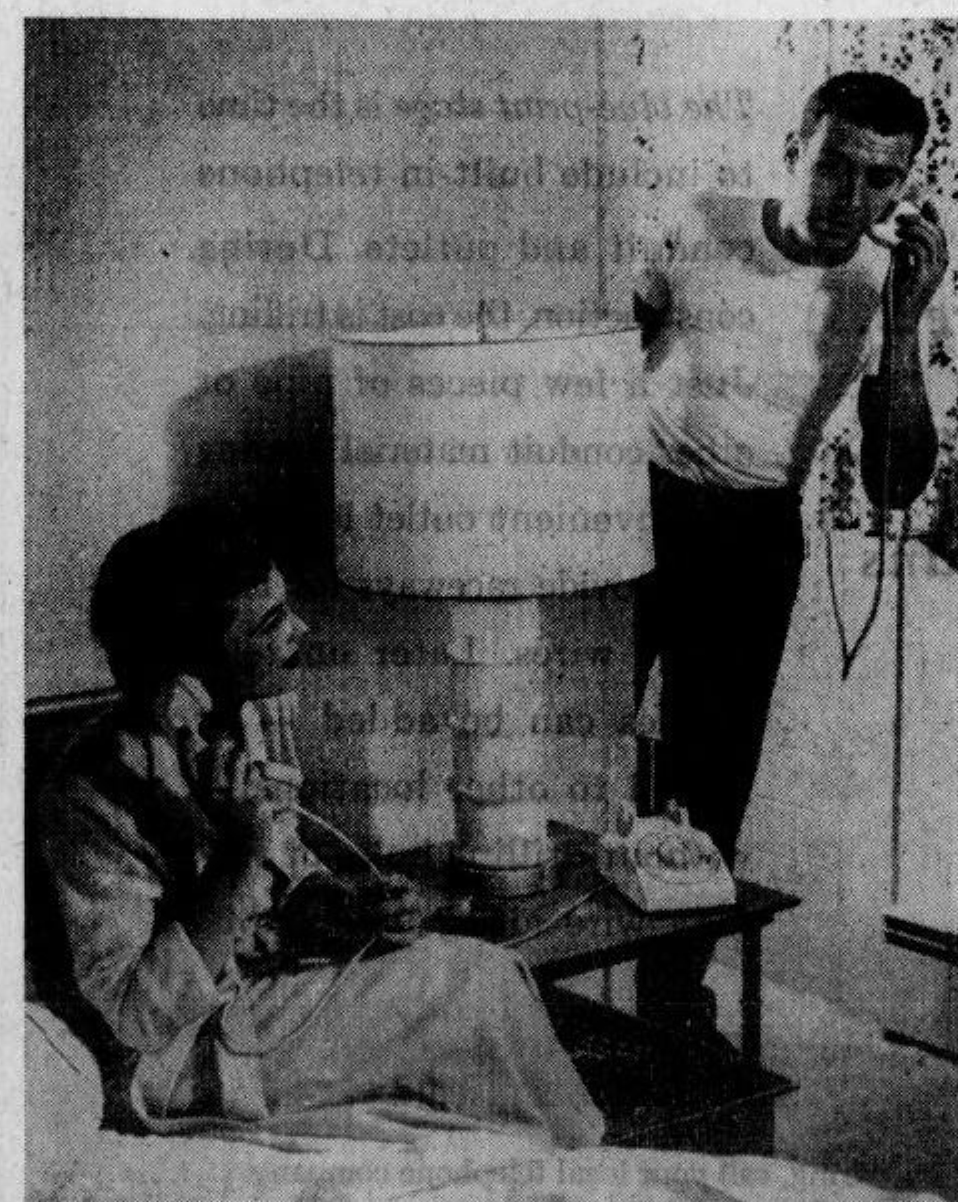
for **Your Convenience**

Directories for other cities are available in the Business Offices and at attended public telephone stations.

Go to the Church of your choice...

TAKE SOMEONE WITH YOU, YOU'LL BOTH BE RICHER FOR IT......



WITHIN EASY REACH for BUSY PEOPLE

in YOUR TELEVISION ROOM

A telephone will serve you well when located close to your favorite chair in the television room. No need to miss a part of any program to answer your important calls.

or at YOUR BEDSIDE

You will find a telephone a real comfort, ready at your fingertips during your resting hours. When sickness or confinement strikes, it is your tie to friends and pleasant moments. In an emergency, a link to help and security.

CALL YOUR PACIFIC TELEPHONE SERVICE REPRESENTATIVE

The blue-print stage is the time to include built-in telephone conduit and outlets. During construction, the cost is trifling. Just a few pieces of pipe or other conduit material leading to convenient outlet locations will provide raceways for telephones wires. Later on telephones can be added — or moved to other locations — without drilling holes or running wire along baseboards.

For convenience in the future... put telephone facilities in your plans

For free help in planning modern, built-in telephone wiring, call your local telephone company number and ask for free "Telephone Planning Service."

You won't miss important calls

when you answer promptly. When you have only two cards left to play in an exciting grand slam hand—or in any situation where you'd like to say "Wait a minute!"—it's always a temptation not to answer the telephone immediately. The person calling, though, doesn't know what you're doing and may hang up, thinking you are not at home. That way you may miss important calls. So, next time your telephone rings, won't you try to answer as quickly as you can?

Pacific Telephone

LOCATED for CONVENIENCE

in YOUR KITCHEN

Extra pleasure and comfort are yours when you have a telephone in your kitchen. It is so handy for receiving calls while baking or cooking those dishes that need your constant attention. When placing calls, you will also enjoy this modern convenience.

or YOUR LAUNDRY

Ever have your telephone ring when you were in the laundry? Imagine what it would be like to have a telephone within easy reach. No more running through the house or upstairs to catch it before it stops ringing.

CALL YOUR PACIFIC TELEPHONE SERVICE REPRESENTATIVE

Just a reminder...

Built-in telephone outlets are inexpensive

It costs little to install conduit for a number of telephone outlets at the time a house is built...and it's a wise economy, even if only one telephone is needed immediately.

Future telephones can then be added without bringing exposed wires in along baseboards or molding.

Outlets add real value to a house. So plan ahead for them. Call or dial your local Telephone Business Office and ask for information about extra built-in telephone outlets.

ON THE FRONT COVER

Almond culture is one of California's larger agricultural industries and accounts for 98% of all almonds produced in the United States. The first plantings of almonds in California were made in 1843 and today, northern San Luis Obispo County is one of the major producing areas in the state.

DAD uses long distance for business. He, also, enjoys phoning out-of-town relatives and good friends, to talk over old times.

MOM enjoys regular telephone reunions with friends and family. She calls on Sundays and after six on weekdays to take advantage of low Station-to-Station rates.

SIS, who's away at school, phones long distance to keep Mom and Dad posted on all her doings. That way she stays in touch even when she doesn't have time to write.

BROTHER likes to talk to anyone by telephone. Most of all his sister at school and his grandparents. They all enjoy hearing from him.

When you phone it's like being there in person! And you'll be surprised how little it costs to call out of town. Why not try it now!

Emergency Calls on Party Lines

WARNING: California Penal Code section 384 makes it a misdemeanor for any person who shall wilfully refuse to immediately relinquish a telephone party-line when informed that such line is needed for an emergency call to a fire department or police department or for medical aid or ambulance service. Also, any person who shall secure the use of a telephone party-line by falsely stating that such line is needed for an emergency call, shall be guilty of a misdemeanor. "Emergency" means "a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential."

HELPFUL INFORMATION

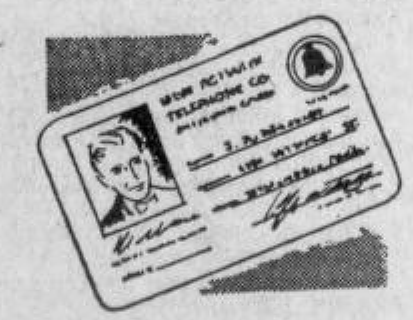
Automatic ANSWERING SET

Certain telephones are equipped with an automatic device, known as an Automatic Answering Set, which answers the telephone mechanically when no person is available to answer and then makes a recorded announcement.

If your call is answered by an Automatic Answering Set, listen carefully for the announcement which will be self-explanatory.

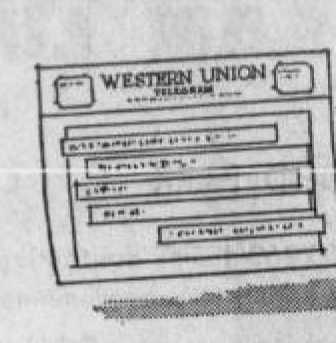
Some of these sets will also receive and record a message from the caller.

When You Hear A "BEEP" TONE



If you hear a short high "beep" tone every 15 seconds or so, it means that the person with whom you are talking is recording your conversation. This signal is produced by recorder-connector equipment furnished by the Telephone Company. Use of a recorder on the telephone line without this equipment is prohibited by the Company's tariffs.

BLUE BOOK *of Telephone Numbers*



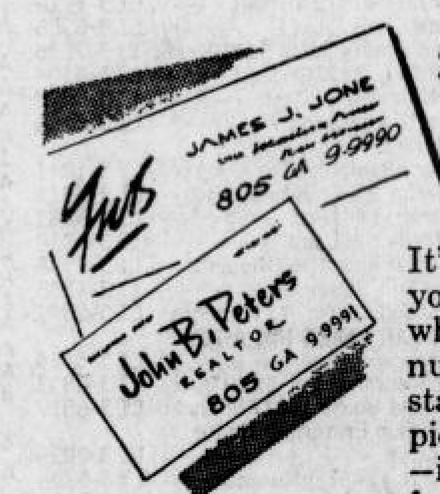
For faster service this attractive Blue Book of Telephone Numbers provides a handy place for keeping your personal list of local and out-of-town numbers.

To obtain without charge, just call, write or visit your business office.

Employee IDENTIFICATION CARDS

Employees who visit customer premises carry an official identification card. If you have the slightest doubt about anyone who says he's "from the Telephone Company" ask to see his card.

TELEGRAMS *by* TELEPHONE



To phone a telegram, see Western Union listings in this directory. Telegram charges will appear on your regular telephone bill, or you can deposit the charge in the box when you call from a coin telephone.

OUT-OF-TOWN DIRECTORIES

Directories of other cities may be obtained by our customers at a nominal charge. Call our Business Office . . .

Telephone directories of the principal cities and towns in the Western States may be consulted at our Business Office.

Your TELEPHONE NUMBER *Is Important*

It's smart to make it easy for your customers to reach you. So why not include your telephone number on your stationery, statements and all advertising pieces? Show your area code, too—it helps distant parties call you faster.

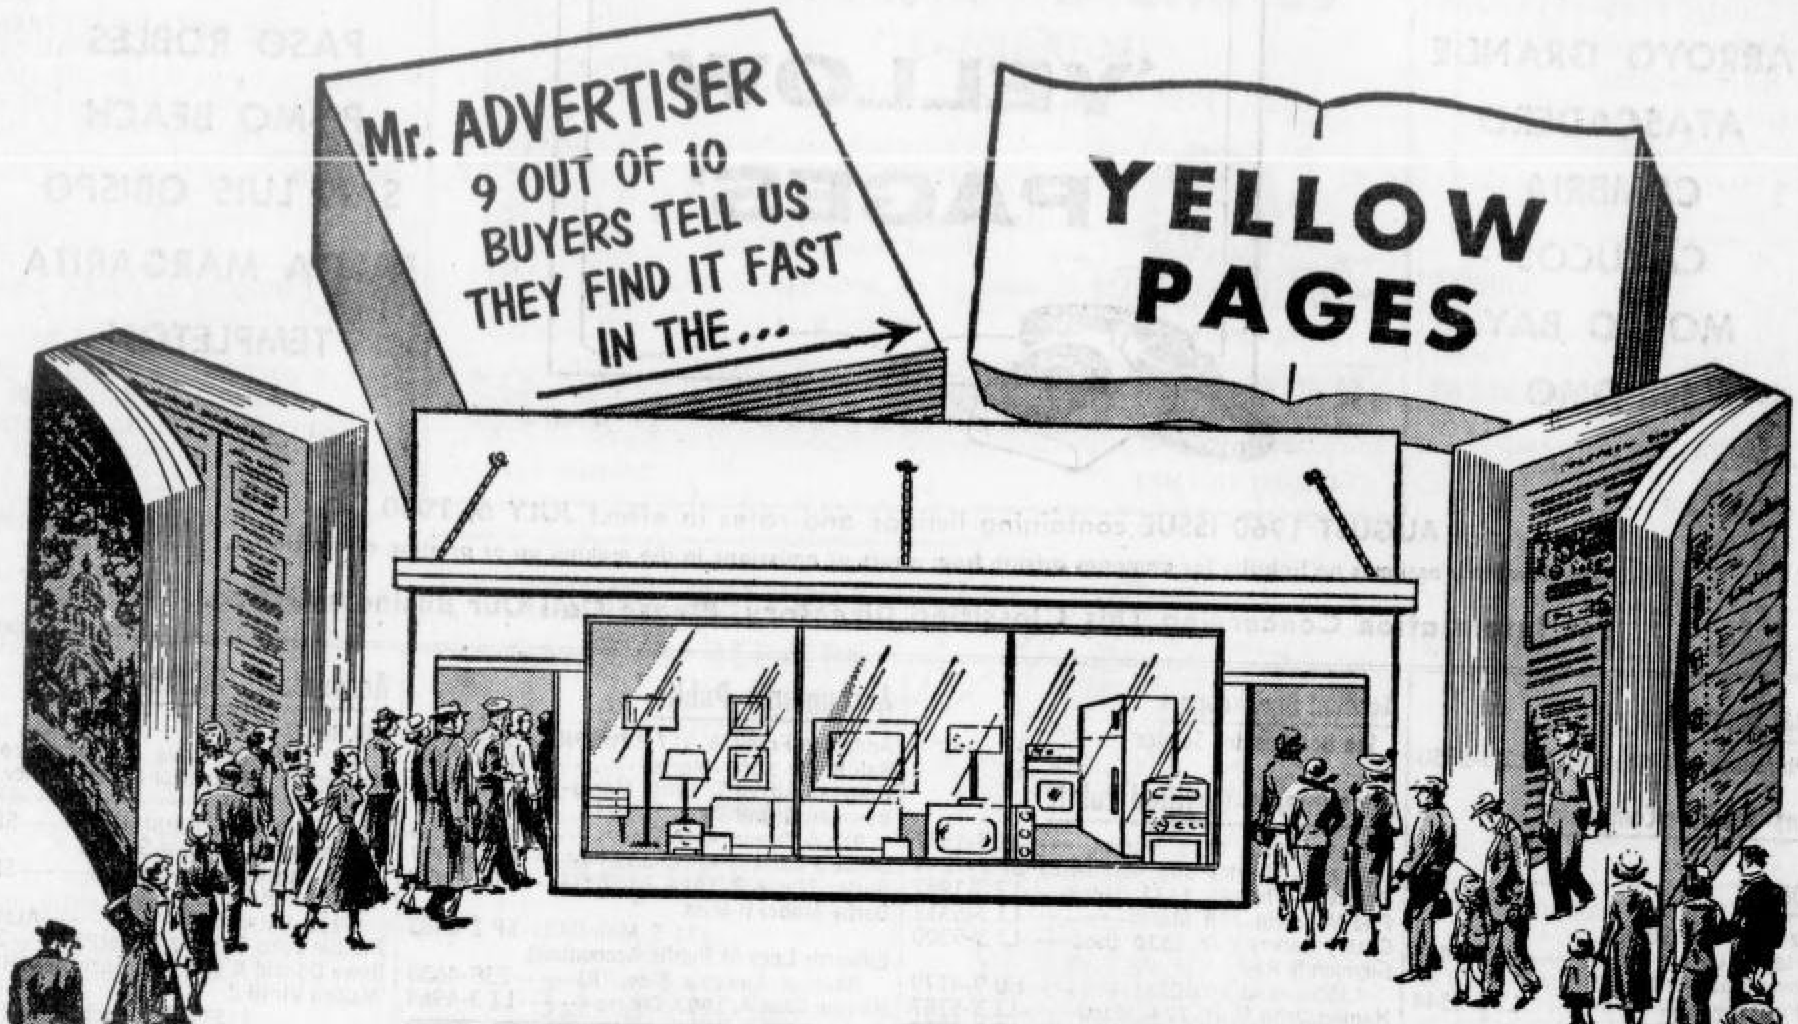
THE PACIFIC TELEPHONE & TELEGRAPH CO. BELL SYSTEM AMERICAN TELEPHONE & TELEGRAPH CO.

For convenience in the future...
put telephone facilities
in your plans

***The blue-print stage* is the time to include built-in telephone conduit and outlets. During construction, the cost is trifling. Just a few pieces of pipe or other conduit material leading to convenient outlet locations will provide raceways for telephone wires. Later on telephones can be added — or moved to other locations — without drilling holes or running wire along baseboards.**



For free help in planning modern, built-in telephone wiring, call your local telephone company number and ask for free "Telephone Planning Service."

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
• Space your calls instead of making several without a break.
• Talk only as long as necessary on each call.
• When you finish talking replace the receiver properly.
• Make certain, if you are using a dial telephone, that the line is clear before you dial.
• Ask your youngsters to be considerate, too.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Here's how you may be sure of getting your party more often when you dial:

1. Look up the number in the latest directory. Write it down.
2. Listen for dial tone.
3. Dial carefully.
4. Wait a minute before you decide your party isn't home.

Would you like to get your share of business from customers in your neighborhood? Then why not advertise in the YELLOW PAGES? Simply call the Business Office of the telephone company and ask for the Directory Advertising Representative. He will help you plan a sales-building message.

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

TO GLUE FURNITURE
In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

TO PAINT SCREENS

To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement instead of a brush, you will save lots of time and avoid lots of splattering.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Party Line Pointers:

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

The men and women in the Bell System are used to meeting emergencies and they are trained and equipped to carry on in times of special need. For years they have known the test of fire, flood and storm. Always before them is the tradition that "the message must go through."

Party Line Pointers:
1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

EGG TRICK

Separate egg whites and yolks by breaking them through a small funnel. The whites go through—the yolks don't.

Would other members of your family appreciate a separate listing in the telephone directory under their own names? The cost is small, the convenience great.

For speed and accuracy on your dial calls, listen first for the dial tone. Dial each letter and digit carefully, drawing the dial all the way to the finger stop. Lift your finger each time to let the dial return to position naturally.

TO PAINT SCREENS

To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement instead of a brush, you will save lots of time and avoid lots of splattering.

TO REPAIR LINOLEUM

If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

EXPLOSION IN OVEN

If you burn the inside of the oven with an exploded potato or something, soak a cloth in ammonia and let it stay on the burned places an hour or so, after which you can scrape the spots clean without harming the enamel.

KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and without hurrying, with the lips close to the mouthpiece.
4. Please replace the receiver gently when through talking.

Behind on orders? Let handy YELLOW PAGES introduce the suppliers you need. It's fast—convenient. Wise buyers say there's nothing like the YELLOW PAGES of your telephone book for getting in touch with almost everyone around who sells things, fixes things, does things. Try the YELLOW PAGES once . . . you'll use it often.

ONIONLESS ONION

If you like potato salad but do not like raw onion, you might try boiling an onion in the water in which you are boiling the potatoes for the salad. This gives the spuds the flavor of onion.

Here's how you may be sure of getting your party more often when you dial:

1. Look up the number in the latest directory. Write it down.
2. Listen for dial tone.
3. Dial carefully.
4. Wait a minute before you decide your party isn't home.

When you call somebody by telephone
PLEASE DON'T "HANG UP" TOO SOON
"Play Ball" with him by giving him time to answer.

FOR BEST RESULTS WITH YOUR TELEPHONE
please . . .
Make sure of the number.
If in doubt consult the Telephone Directory.
Speak with lips close to the mouthpiece, using your natural tone of voice.
And give the called person TIME to answer!
Thank You!

KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

Behind on orders? Let handy YELLOW PAGES introduce the suppliers you need. It's fast—convenient. Wise buyers say there's nothing like the YELLOW PAGES of your telephone book for getting in touch with almost everyone around who sells things, fixes things, does things. Try the YELLOW PAGES once . . . you'll use it often.

The men and women in the Bell System are used to meeting emergencies and they are trained and equipped to carry on in times of special need. For years they have known the test of fire, flood and storm. Always before them is the tradition that "the message must go through."

KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

Party Line Pointers:

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and without hurrying, with the lips close to the mouthpiece.
4. Please replace the receiver gently when through talking.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

A thoughtful party-line user answers her telephone bell promptly . . . places her own calls accurately so that they need not be placed again . . . teaches children the little telephone courtesies.

Unless you wait for the steady **hummmmming** sound of the dial tone, the equipment cannot put through your call. Please wait for the dial tone before you start to dial.

KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

TO REPAIR LINOLEUM
If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

ONIONLESS ONION

If you like potato salad but do not like raw onion, you might try boiling an onion in the water in which you are boiling the potatoes for the salad. This gives the spuds the flavor of onion.
